PROVISIONS FOR CONVERSION TO EASEMENT

1. An easement, the full width of the existing right of way, is reserved for the Detroit Water and Sewerage Department (DWSD) for the purpose of installing, maintaining, repairing, removing, or replacing any sewers, water mains, fire hydrants and appurtenances, with the right of ingress and egress at any time to, and over said easement for the purpose above set forth. Any proposed fencing across the easement must have a gate installed to permit access for DWSD forces. The gate shall remain unlocked 24 hours a day, unless a guard is stationed near the gate to allow the DWSD ingress and egress at any time. The minimum dimensions of the gate or gates shall provide 15-foot vertical and 13 foot horizontal clearances for freedom of DWSD equipment movement.

Free and easy access to the sewers, water mains, fire hydrants and manholes and structures within the easement is required for DWSD equipment, including the use of backhoes, bull dozers, cranes or pipe trucks, and other heavy construction equipment, as necessary for the alteration or repair of the sewer and/or water main facilities.

DWSD retains the right to install suitable permanent main location guide posts over its water mains at reasonable intervals and at points of deflection.

2. Said owners of the adjoining property, for themselves, their heirs and assigns, agree that no building or structure of any nature whatsoever, including fences, porches, patios, balconies, etc., shall be built upon or over said easement, or that no grade changes or storage of materials shall be made within said easement without prior written approval and agreement with DWSD.

DWSD prohibits the use of heavy construction equipment or the storage of building material directly over or near DWSD facilities. DWSD also prohibits the use of cranes and balls or hydraulic rams for pavement removal where DWSD facilities are involved. If the water main and/or sewer facilities are broken or damaged as a result of any action on the part of the contractor, the contractor shall be liable for any and all costs incidental to the repair of such broken or damaged water main and/or sewer facilities.

3. If at any time in the future, the owners of any lots abutting on said conversion to easement shall request the removal and/or relocation of the aforementioned utilities in said easement, such owners shall pay all costs incidental to such removal and/or relocation. It is further provided that if sewers, water mains, and/or appurtenances in said easement shall break or be damaged as a result of any action on the part of the owner, or assigns, then in such event, the owner or assigns shall be liable for all costs incidental to the repair of such broken or damaged sewers and/or water mains, and shall also be liable for any and all claims for damages resulting from his action.

Re: Letter of Intent to Vacate Public Alley Between Property 30 E Philadelphia and 50 E Philadelphia

To Whom It May Concern,

I am writing to formally submit this Letter of Intent requesting the vacation of the public alley located between 30 E Philadelphia and 50 E Philadelphia.

The alley in question has been inactive and unused since at least 2018, with no vehicle or pedestrian traffic and no functional public purpose being served. It has remained effectively dead space for several years.

Property 30 E Philadelphia has no practical alternative location for the installation of required utility equipment, specifically the gas meter and air conditioning condenser units, other than along the alley-facing side of the building. Vacating this alley would allow for proper placement of these essential mechanical components while improving overall site safety, security, and maintenance.

The proposed vacation will not negatively impact access to neighboring properties, as there has been no active use of this alley for an extended period. Instead, it will allow for better property management, enhanced appearance, and responsible maintenance consistent with the surrounding area.

We respectfully request that the City of Detroit review this matter and advise on the next steps in the alley vacation process.

Thank you for your time and consideration.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Fahad Sultan', is written over a horizontal line.

We, the undersigned individuals owning property adjacent to the proposed right-of-way to be vacated have no objections to the request of the petitioner. This petition requires consent by 2/3 of the adjacent owners in residential areas. Commercial areas require 100% of adjacent owners to consent. Properties owned by a business or other entity must be signed by an authorized agent in order to be counted in this petition.

By signing this petition the property owner is confirming awareness of the following changes to their property:

- (1) Vacating the proposed street or alley will result in the property owner being allocated ownership of ½ of the street or alley (conditional to the design of the subdivision) and will cause the property assessment to be adjusted to include the increase in square footage.
- (2) Drainage fees to the property will be adjusted based on any added impervious surfaces added to the property. Please contact the Department of Water and Sewage for additional questions regarding rates.
- (3) Garages orientated toward the alley may no longer be accessible by the alley. Upon approval of this petition the alley will no longer be considered public. The property owner waves their right to access their property using the alley.

Commercial properties are subject to the conditions of their land use grant. Which may require permission from the Buildings and Safety Engineering and Environment Department or the Board of Zoning Appeals prior to changing the limits of their property.
