RE: City Petition Letter of Intent

for the Conner Street ROW Vacation within the New Airport Property Boundary Limits
at Coleman A. Young Airport (DET) at 11499 Conner Street, Detroit, Michigan

Applicant Info

- Name: Jenni Warnimont, PE (Kimley-Horn of Michigan, Inc.)
- Phone: 312-924-7415
- The applicant is not the property owner. The property owner, the Coleman A. Young Airport, has hired Kimley-Horn as their consultant for this project. Kimley-Horn is representing the property owner in this application.

Proposal

The purpose of this Letter of Intent is to introduce new property boundary limits of the Coleman A. Young Airport (the "Airport") to the City of Detroit Maps and Records Department (the "City"). The new limits expand the Airport's property boundary east to the existing fence line that is installed along the west side of Conner Street. It is the intent of the Airport to submit a petition for vacation with utility easements within these new property boundary limits and to adjust the right-of-way limits of Conner Street to match the new property boundary. Additionally, this expansion of property boundary limits includes one site of proposed development. This letter also requests a petition of outright vacation of utilities within the development footprint.

In the attached exhibits, the blue and green hatches represent the footprint of the proposed property boundary limits being requested by the Airport for the vacation with utility easements and right of way adjustment. The blue hatch is on the northeast side of the site at crossroads E McNichols Road and Conner Street. The green hatch is on the southeast side of the site at crossroads Gratiot Avenue and Conner Street. The cyan hatch represents the development that will be constructed in the near future. The red dashed limits around the development represents the limits of the outright utility vacation petition for this project.

It is our intent to send this petition to the City to notify the utility entities of the utility vacations or relocations required for this project and to kick off the design coordination for those vacations or relocations.

If there are any comments on the petition application, please let us know and we will be happy to revise.

Thank you for your time and your review,

Jenni Warnimont, PE
Kimley-Horn of Michigan, Inc.
