PLAN SHEET LEGEND

500' ROW ROW ROW Ex 33' ROW 100' ROW 18 18 18 18 18 17 A 2 Deeded to John Boker 1-12-61

The Project or Control Section number above the box identifies the group of numbered parcels.

"Gr." indicates that the ROW outside the standard requirement for the area, has the restriction "to be used for grading only." "Gr." will be noted at left of parcel number with recording data.

Hatched areas have been disposed of as noted,

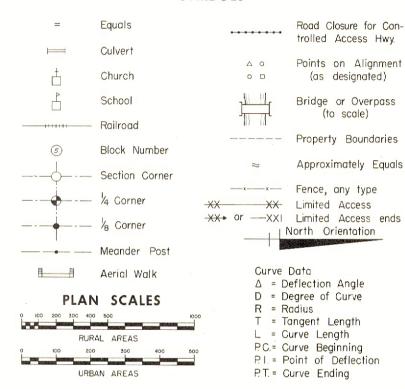

The distance from station 100 to station 105 is 500 feet. Parcel 16 shown above is 575 feet long (station 105 + 75 minus station 100 + 00 = 575 feet).

Perpendicular distances from the $\ensuremath{\cancel{\ell}}$ to ROW lines are shown with the suffix ROW, IOO' ROW as shown above denotes an equal distance of 50' from the $\ensuremath{\cancel{\ell}}$ to each ROW line.

Parcels are shown outlined with heavy lines, and are numbered.

Distances are measured from ${\mathscr E}$ unless otherwise noted.

HOW TO USE THIS BOOK

If, for example, you desire to know what Right-of-way the M.D.S.H. controls across any given area:

First -Look at the Title Sheet to determine the appropriate sheet number by finding the proper Section number in the Town and Range where property is located.

Second-Find the parcel number and read the dimensions.

Third -For recording data see information to the right of parcel number in recording data box. The description of the parcel is on file in the Register of Deeds office in the Liber and on the Page shown in the recording data box.

Alternate method of showing Excess Sales. Restrictions or Conditions
