To the Honorable the Common Council:

Gentlemen—To your Committee of the Whole was referred the petition of Parke, Davis & Co. (5098) for permit to install a water intake pipe, running from its power plant north of Atwater street, to the Detroit River at a point where the west line of McDougall avenue, if extended, would intersect the shoreline of Detroit River, making it necessary to tunnel under Atwater street, as indicated on blue print accompanying petition. Your committee finds that the intake pipe will be approximately 3 feet in diameter, inside measurement, and the upper wall will be about 14 feet below the surface. Your committee is informed by the City Engineer that there is no present or projected public improvement which would be interfered with by the granting of request. We therefore recommend that petition be granted and offer the following resolution.

Respectfully submitted,

R. M. WATSON,
Chairman.

By Councilman Watson:

Resolved, That the Department of Public Works be and is hereby authorized and directed to issue a permit to Parke, Davis & Co. to install water intake pipe, approximately 3 ft. in diameter with upper wall 14 ft. below surface, under Atwater street, said intake pipe extending from power plant north of Atwater street to Detroit River at intersection with west line of McDougall avenue, extended;

Provided, That said work shall be performed under the supervision of the Department of Public Works and in accordance with plans submitted to and approved by said department.

Provided, subject to the prior rights of the City of Detroit and all public service corporations, that no rights in the public streets, alleys or other public places shall be considered waived by this permission, which is granted expressly on the condition that said pipe and all

obstructions in connection therewith shall be removed at the expense of the grantee at any time when so directed by the Common Council, and that the public property affected shall be restored to a condition satisfactory to said department by said grantee at its expense; and further

Provided, That said permit issued by the Department of Public Works is granted with the distinct understanding that in the event of the charter of the City of Detroit being amended in such manner as will provide for the levying of a fee, charge or rental, to be hereafter determined upon, or in the event of an ordinance or resolution being enacted providing for an annual charge or rental for the occupancy of public streets, alleys or other public places, that the grantee will pay said fee, charge or rental provided for in said charter, or ordinance or resolution, and that said grantee does hereby bind himself thereunto and to accept said permit on the conditions hereby imposed, and in the event of the said grantee contesting the validity of said charter amendment, ordinance or resolution or of said fee, charge or rental, or upon refusal to pay same, this permit shall immediately become void; and further

Provided, This resolution is revocable at the will, whim or caprice of the Common Council and grantee hereby expressly waives any right to claim damages or compensation for property constructed hereunder or for the removal of same, and further, that grantee acquires no implied or other privileges hereunder not expressly stated herein.

Gentlemen—To your Committee of the Whole was referred the petition of Mrs. H. Rybka, et al, (4610), asking that the name of Harned avenue between Seven Mile Road and State Fair Ave., be changed to Jos. Campau Ave. Your Committee has also had under consideration communication from the City Plan Commission, recommending that petition be denied by reason of the fact that Harned Ave. is not a continuation of Jos. Campau avenue, but is more nearly a continuation of Brinker avenue. We therefore recommend that petition be denied.
